

Here are the substantive typos that I have found so far; please let me know if you find any others.

Pg. 33:

The right-hand side of Equation 1.47 should be:  $\text{cov}(m, g)$   
(i.e. substitute  $m$  for  $w$ ).

Pg. 51:

In Equation 2.22, the final term in the numerator should be  $w_{21}^*$  rather than  $w_{11}^*$ .

Pg. 81:

In the first line of regular text (after the figure legend), the citation should read: (Felsenstein 2003).

Pg. 67 & 68:

The unsubscripted  $u$  term in Equations 2.34 and 2.36 should be  $u_1$ .

Pg. 120:

Equation 4.23 should read:  $\text{var}(p) = E(p^2) - [E(p)]^2$

Pg. 148:

The  $w$  in Equation 5.46 should be a  $\bar{w}$ .

Pg. 204:

In the first full paragraph after Equation 7.24, the citation should read (Rice 2004).

Pg. 208:

In the second bulleted point at the bottom of the page, the equal sign (=) should be replaced with a "not equal" sign ( $\neq$ ). Also, the second comma in the subscript of  $w_{i,j}$  should be deleted. The line should thus read:

- $w_{i,j}$  for  $i \neq j, \dots$

Pg. 211:

In the second to last line of the page, the term " $x = 0$ " should be replaced with " $\bar{x} = 0$ ".
